

PROOF OF DELIVERY (POD)

DIGI CLIP mobile forms uses high resolution image capture to take a digital copy of paperwork on a smart device and then communicates that paperwork to those that need it in real time.

Once the image of the paperwork (POD) has been captured on a phone or tablet, via the Digi Clip app, and submitted to the cloud based software an email is then generated and distributed to nominated recipients with all the information from the paperwork (POD).

THE MAIN BENEFIT OF THIS FUNCTIONALITY IS THE ACCOUNTS DEPARTMENT CAN START THE INVOICING CYCLE IMMEDIATELY.

Features

- High res image capture
- Automated emails
- Archiving of documents
- Secure
- App provides an offline capability

Benefits

- No lost paperwork
- No delays in receiving paperwork
- Shorter invoicing cycle
- Increased cash flow

WHAT ARE DIGI CLIP MOBILE FORMS?

DIGI CLIP is a fully customisable mobile form app and cloud based software that allows checklists, audits and other forms to be completed on an IOS or Android smart device and then submitted to the cloud based software. Once a form is submitted an automated email alerts all that need that form. Furthermore, all submitted forms are archived in the cloud-based software and can be accessed via the Internet and a web browser.

DIGI CLIP mobile forms uses all the functionality of a smart device, such as image capture, signature capture and GPS functionality to enhance the information captured in a form.

The DIGI CLIP app works seamlessly with and without Internet connectivity.

IMPROVE PROCESSES THAT DRIVE COMPLIANCE, EFFICIENCY AND PROFITS!
